March 2017

ACCOLADES FOR FENZI CHINA'S SUCCESS

Fenzi China Paints and Sealants Company Limited receives Excellent Enterprise 2016 Award.

The award celebrates 8 companies for their excellence in sales, and workplace safety and quality. The local authorities of the Jiaxing district selected the Chinese branch of the Fenzi Group again for this award from among more than 1,000 companies working in various branches of industry. The award is a testament to the high growth potential of Fenzi China, which has been very active in the area for more than 10 years, occupying and maintaining a prominent position in the extremely competitive Chinese market.

Stefano Pozzi, General Manager of Fenzi China expressed his great satisfaction: «Over these years, the business culture of our group and the sales expertise of all the team have allowed us to secure an important share of the Asian market. In fact, the company's year-end results in 2016 were extremely good. All the group's business units posted an increase in sales, especially in the warm edge sector, with Alu Pro and the Butylver and Thiover sealants. All our product ranges are always very popular among Chinese flat glass processors, who are looking for that mix of high performance and easy processing that Fenzi machinery guarantees».

According to Stefano Pozzi, 2017 will be another year of growth for the group: «Our expectations for this year are very positive; and this is mainly because of the daily efforts of our closely-knit and motivated group, and our strong brand impact on customers».
