

## Fenzi Earns Golden Bridge Accolades

Posted on December 15, 2015 by News Editor

Fenzi's Vilvoorde branch is one of eight finalists in the Golden Bridge Trade & Export Awards 2015. The event is held each year by the Chamber of Commerce of Belgium and Luxembourg in the UK and the British Chamber of Commerce in Belgium.

Now in its 19th year, the Golden Bridge Trade & Export Awards celebrates the highest-achieving companies in Belgium/Luxembourg and the UK in terms of exports and trading in both markets. The competition spans all sectors of production, both in the field of services and in a manufacturing category.

Fenzi was selected by a jury of sponsors, previous winners and specialists, from among more than 200 companies and passing strict selection criteria. The finalists were presented their awards at a ceremony in London on November 26.

"Making it to the finals was a huge achievement for Fenzi Belgium, the local management team and all the group," says Fenzi CEO Alessandro Fenzi. "It illustrates once again how much Fenzi products have to offer in terms of innovation and market penetration, demonstrating the great professionalism of all the team at Vilvoorde. These are important strengths when competing in a particularly demanding market that is careful about the quality of products and services like the UK market, which Fenzi dedicates special attention to. And this is why all the team is really [excited] over the result."
